

Vikram Tanwer

Full-Stack & GenAI Developer

vikramtanwer18@gmail.com | 9352745868 | linkedin.com/in/vikram-tanwer18 | github.com/vikramtanwer18

PROFESSIONAL SUMMARY

Full Stack & Generative AI Engineer with experience building scalable SaaS platforms, AI-driven automation systems, and real-time web applications using React.js, Next.js, Node.js, and OpenAI technologies. Proven experience developing production-grade AI agents, payment-integrated platforms, and multi-role dashboards serving business automation workflows.

WORK EXPERIENCE

Fonix Technologies, Full Stack & GenAI Developer

05/2025 – Present | Jaipur

- Engineered an autonomous **Lead Qualification Engine** using **OpenAI** that processed **1,000+ leads** with a **99% accuracy rate** in identifying high-value prospects.
- Engineered a high-performance **Retrieval-Augmented Generation (RAG)** system using **LangGraph** for complex agentic workflows and **ChromaDB** as a vector store for efficient similarity search and context-aware data retrieval.
- Integrated and managed secure, real-time transaction processing using **Stripe and Razorpay** gateways.
- Architected secure, multi-provider authentication workflows using **NextAuth.js**, integrating **Google OAuth, Facebook**, and custom **JWT-based** authentication systems.
- Orchestrated application deployment on **Hostinger VPS** using **Docker and Nginx**, managing domain configurations via **Amazon Route 53** to ensure 99.9% system availability.

3 Handshake PVT LTD JAIPUR, INTERNSHIP

07/2024 – 01/2025

- Engineered an automated backup verification system using Bash scripting to validate data integrity across **300+ daily system backups**, improving reliability and reducing potential data corruption risks.
- Boosted frontend performance and reduced initial load latency by implementing dynamic code splitting and lazy loading strategies in React applications.
- Optimized frontend-backend API interactions, improving application responsiveness and ensuring efficient real-time data rendering.

PROJECTS

Cover Launch , OpenAI | Node.js | React.js | Redux & Redux Toolkit | MySQL | Stripe | Twilio

- Integrated **AI-driven automation workflows** using OpenAI GPT models for lead intake, qualification scoring, automated summaries, and intelligent lead qualification agent assistance.
- Designed and implemented robust **REST APIs** using **Node.js, Express, and MySQL** for complex lead pipelines, affiliate tracking, and granular **Role-Based Access Control (RBAC)** for Admin, Agent, and Affiliate roles.
- Engineered end-to-end communication systems using **Twilio** (calling, voice drops, call recording) and **Meta API**, utilizing webhooks and event-driven workflows for full auditable follow-ups.
- Architected secure, cloud-based file management using **AWS S3** with strict access controls, while engineering automated workflows for **Google Calendar** scheduling and **Stripe** payment processing to ensure a seamless, end-to-end user experience.

Travel Assistance , OpenAI Agent SDK | Node.js | MySQL | Next.js

- Engineered a sophisticated "Manager-Agent" routing system using the **OpenAI Agent SDK** to intelligently dispatch user queries to specialized agents for Flights, Hotels, and Destinations, achieving a **99% query resolution rate**.
- Implemented real-time tool calling with the **TBO API** to fetch live flight data and top-rated hotel information based on user-specific origin and destination criteria.
- Utilized **Zod** on the backend to enforce strict schema validation for AI-generated responses, ensuring 100% structured and consistent UI rendering for complex itineraries and flight lists.
- Developed autonomous **7-day itinerary generation**, producing structured travel plans including budget estimation, destination highlights, recommended experiences, and attraction suggestions.

SKILLS

Core AI: OpenAI Agent SDK, LangGraph, LangChain, ChromaDB,

Languages: JavaScript, Python, MySQL, MongoDB,

Frameworks: React.js, Next.js, Redux & Redux Toolkit

Tools & Deployment: AWS, Docker, Nginx, Git, GitHub

EDUCATION

Master of Computer Application, Apex University, Jaipur

05/2023 – 03/2025
